

COVID-19 Vaccine Position Statement
February 23, 2021

As a childcare and educational services provider, protecting the health and safety of all members of our community, especially the children we serve on a daily basis, is TCDN's highest concern. In furtherance of this priority, TCDN strongly encourages all members of the TCDN community to receive the COVID-19 vaccine when they are eligible, including teachers, staff, and members of the families we serve. For vaccines that require two or more doses for maximum efficacy, members of our community should receive all required doses within the timeframes prescribed by the U.S. Food and Drug Administration and the Pennsylvania Department of Health.
